Subject: Microsoft Settlement

As I understand the settlement proposed by the DOJ with Microsoft, it does not address any of the requirements laid out by the appeals court.

Jobs flourish when there is heavy competition, especially in the computer industry. By refusing to ensure that competition exists, you reduce the number of jobs available in the technology sector, reduce innovation in that sector, and in general damage the economy.

Please review your agreement - this is bad for the economy, for the people , and for business.
